# Making an Impact

## 2025 Fundraising Achievements

In 2025, The Woman's Board donated over \$600,000 to various initiatives throughout Rush including Road Home Program for veterans and their families, memorial services at the hospital, science kits to the Rush Day School, continuing nursing education, innovative technology to the Women's and Children's Hospital, transition care for patients after visiting Rush, The Joan and Paul Rubschlager Building.

The Woman's Board also fulfilled their commitment of \$500,000 to *The Woman's Board Endowed Fund for Research and Clinical Trials at Rush*.

## Driving Discovery and Supporting Rush's Mission. Forever.

Tomorrow's healthcare discoveries begin with today's research. Much of this discovery happens at Rush University System for Health, where more than 1,600 research studies are currently underway. By supporting The Woman's Board, *The Woman's Board Endowed Fund for Research and Clinical Trials at Rush* will fund more of these successful, often pioneering advances.

For many Rush investigators, the quest for medical breakthroughs begins as pilot studies, first supported by The Woman's Board or other private donors. When pilot studies successfully transition into larger-scale studies or clinical trials, they require tremendous financial support and significant infrastructure to engage patient participants and advance promising research. *The Woman's Board Endowed Fund for Research and Clinical Trials at Rush* will propel Rush's groundbreaking medical research across the continuum.

By joining us as a sponsor, you will further The Woman's Board's distinguished, 140+ year tradition of providing sustainable endowment support, driving novel research, effective healthcare solutions and leading-edge patient care for the Chicago region. Together, we will help Rush deliver what we all deserve: the opportunity to live our healthiest lives possible.
